ECLIPSES, &c.

There will be only two Eclipses this year, and those both of the Sun, and both invisible.

1. Feb. 9, the Sun is invisible eclipsed, about half past noon.

2. Aug. 5, the Sun is invisible eclipsed, about half past 1 in the morning.

VENUS will be an evening star till May 30, and a morning star the rest of the year.

JUPITER will be an evening star till March 10, after that a morning star till Oct. 2, then an evening star to the end of the year.

The

The Use of the foregoing Table for the Purchase of Leases, &c.

THE Table consists of five Columns. The first contains any Number of Years that are to be purchased, from 1 Year to 100.

The 2d tells you how many Years and odd Months Purchase such a Lease is worth in ready Money, 5l. per Cent. being allowed for the Interest of the Money laid out.

The 3d Column shews, what the same is worth at 6l. per Cent. The 4th at 8l. per Cent. and the last at 10l. per Cent.

Example: What is a Lease of 51 Years to come, worth in ready Money at 5l. per Cent.

Look in the first Column for 51 Years, and right against it under 5l. per Cent. you shall find 18. 3. which shews the Lease is worth 18 Years Purchase, and 3 Months, which is a Quarter of a Year. So that if the Rent were 10l. a Year, then 18 Times 10l. is 180l. and the Quarter of the Year is 2l. 10s. in all 182l. 10s. and so much is the Lease worth in ready Money, at 5l. per Cent.

—But if the Purchaser would have 6l. 8l. or 10l. Profit for his Money, then let him look under the respective Columns of 6l. 8l. and 10l. per Cent. and he shall have his Desire.

A Table shewing the Price of the Great Hundred, or 112 lb. at any Price, from one Farthing to Eighteen Pence the Pound.
